

# Climate Protection Certificate 2022

## keeper Poland sp. z z.o.

used in the year 2022 the following quantities of procyklen<sup>®</sup> and recythen<sup>®</sup>:

Type	Quantity (t)
procyklen <sup>®</sup> PP50 M1 2 C05 F28	224.00
procyklen <sup>®</sup> PP50 M1 2 C05 F32 / F44	272.00

Based on these quantities the calculated  
**greenhouse gas savings were\***  
**496.99 t**

This corresponds to the average annual CO<sub>2</sub> emission of 254 cars!\*\*\*

10 514 704 kWh  
of primary energy were also saved!

This corresponds to the annual electricity consumption of 694  
3-person households!\*\*\*

We would like to thank you on behalf of the environment and climate protection!
